

JITHIN BIJU A

PYTHON DEVELOPER

✉ jithinbiju345@gmail.com ☎ 8086213958 📍 Calicut, India 🔗 [linkedin.com/in/jithin-biju](https://www.linkedin.com/in/jithin-biju)

PROFILE

Motivated and detail-oriented Python developer with hands-on experience in Django, HTML, CSS, and Bootstrap. Currently pursuing a full-stack development internship, with practical knowledge in building web applications, implementing user authentication, and performing CRUD operations. Passionate about backend development and API creation, with a strong interest in problem-solving and continuous learning. Seeking an opportunity to contribute technical skills and grow as a software developer.

PROFESSIONAL EXPERIENCE

Python Developer Intern

Luminar Technolab

07/2025 – Present

Calicut, India

- Working as a Python Full Stack Developer Intern at Luminar Technolab, developing web applications using Django and REST APIs.
- I have experience in implementing user authentication, performing CRUD operations, and working with Django ORM.
- I also build responsive interfaces using HTML, CSS, and Bootstrap, and have basic knowledge of Django REST Framework.

SKILLS

Programming

Python

Frontend Development

HTML, CSS, Bootstrap, JavaScript, React.js, Responsive Web Design

Backend & APIs

Django REST Framework, REST API Development, Authentication, CRUD Operations

Database

SQLite, Django ORM (Object Relational Mapping)

Concepts

Object-Oriented Programming (OOP), MVC/MVT Architecture

PROJECTS

BloodConnect — Blood Donation Management Platform

Tech Stack: React.js, Django, Django REST Framework, REST APIs

- Developed a full-stack blood donation management platform to connect donors and recipients through efficient blood request workflows.
- Implemented donor registration, authentication, emergency blood requests, and donor request acceptance features.
- Built advanced search and filtering functionality based on blood group and location to help users find suitable donors quickly.
- Designed responsive and user-friendly interfaces to improve accessibility across devices.
- Planned future enhancements including blood donation camp management and real-time notification systems.

EDUCATION

Bachelor of Science (B.Sc) in Botany

CALICUT UNIVERSITY

2022 – 2025

LANGUAGES

- English
